Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

MANAGEMENT DISCUSSION AND ANALYSIS

INDIAN ECONOMY

The FY 2022-23 commenced with the Indian economy facing headwinds in the form of inflationary pressures. Despite a challenging start, the Indian economy has displayed resilience and grew 7.2% in FY 2022-23, aided by sound macroeconomic fundamentals and improved high frequency indicators. Sustained efforts taken by the Reserve Bank of India (RBI) to rein in inflation by increasing the repo rate by 250 basis points (bps) over the past year have been reasonably successful. The Government's continued thrust on infrastructure-driven, capex-led economic growth, together with signs of a revival of private sector investment in manufacturing and an improvement in capacity utilisation, has maintained the growth momentum.

The Government's push for growth through larger infrastructure spends continues in FY 2023-24. India's GDP growth is expected to remain robust in FY24. GDP forecast for FY24 to be in the range of 6.5% as per RBI in its latest Monetary Policy Statement. Recovering from pandemic-induced contraction, Russian-Ukraine conflict and inflation, the Indian economy is staging a broad-based recovery across sectors, positioning to ascend to the pre-pandemic growth path in FY23. The private capex continues to provide tailwinds to the growth momentum. A healthy balance sheet of private players, improving consumer confidence and investment activity, as well as growing demand conditions, will provide support to economic growth in the near term. It is expected that the prolonged geopolitical conflict in Europe could continue to impact supply chain dynamics and keep commodity prices volatile for a longer period. Finally, India, due to the structural reforms and the infrastructure-strengthening efforts of the Government and the monetary support from the RBI, is in a better position to counter the challenges and sustain its growth agenda.

INFRASTRUCTURE AND CONSTRUCTION SECTOR OVERVIEW

This sector is a key driver for the Indian economy, and contributes to India's overall development. Despite the surge in construction costs, government spending on infrastructure projects has remained strong in 2022-23, and the trend is projected to further continue in 2023-24. This along with the spending on commercial projects, including the construction of new data centers across the country, will keep supporting the growth of the construction industry over the next three to four years.

Furthermore, the demand for residential units is also driving the residential construction market in India. Despite the surge in construction costs and rate hikes announced by the Reserve Bank of India, the growing residential sales volume has led to a recovery in the real estate market.

The government has announced a strong pipeline of infrastructure projects across different sectors. The spending on these projects is projected to keep assisting the growth of the overall construction industry in India over the next three to four years. To fund the infrastructure construction projects, the government has also entered into loan agreements with the Asia Development Bank.

We shall continue to explore new opportunities in construction of various EPC based project in different geography. Currently, the Company is evaluating a few proposals and is looking forward to add some value-accretive projects to its portfolio in financial year 2023-24.

GOVERNMENT INFRASTRUCTURE (HOSPITALITY SECTOR)

The hospitality sector in India encompasses a wide range of services, including hotels, resorts, restaurants, event venues, and recreational parks. India's tourism industry has been growing steadily, both in terms of domestic and international travelers, which has a direct impact on the hospitality sector.

Recreational parks that offer various activities such as amusement rides, water rides, adventure sports, and entertainment have also been evolving after easing of COVID related restrictions.

This segment is really lucrative with people going out with their family and friends without any hassle. Our findings suggest that if this trend continues, then this segment will create boom in the market.

We shall continue to explore new opportunities in this segment. Currently, the Company is evaluating a few proposals and is looking forward to add some value addition to its portfolio in financial year 2023-24.

Information other than the Financial Statements and Auditors' Report thereon

- The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.
- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit, or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 with respect to the preparation of these Standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind. AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the

Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced.

We consider quantitative materiality and qualitative factors in

- (i) planning the scope of our audit work and in evaluating the results of our work; and
- (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2(h) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of SHASHIJIT INFRAPROJECTS LIMITED of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of sub- section 3 of Section 143 of the Companies Act, 2013 (“the “Act”)

We have audited the internal financial controls over financial reporting of **SHASHIJIT INFRAPROJECTS LIMITED** (the “Company”) as of March 31, 2023 in conjunction with our audit of the standalone Ind. AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Management of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external

purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

C. USE OF ESTIMATES:

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities as of the balance sheet date, reported amounts of revenues and expenses for the period ended and disclosure of contingent liabilities as of the balance sheet date. The estimates and assumptions used in these financial statements are based upon management's evaluation of the relevant facts and circumstances as on the date of the financial statements. Actual results may differ from those estimates. Any revision to accounting estimates is recognized prospectively.

D. REVENUE RECOGNITION:

- Ind AS 115 Revenue from Contracts with Customers: Ind AS 115 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. Ind AS 115 requires entities to exercise judgment, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires relevant disclosures.
- Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Expenses reimbursed by customers during the project execution are recorded as reduction to associated costs. Revenue also excludes taxes collected from customers.
- Stage of completion is determined with reference to the certificates given by clients / consultants

appointed by clients as well as on the billing schedule agreed with them for the value of work done during the year.

- Revenue from supply contract is recognized when the substantial risk and rewards of ownership is transferred to the buyer and the collectability is reasonably measured. Revenue from product sales are shown as net of all applicable taxes and discounts.
- **Interest:** Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest applicable. Interest income is included under the head “Other income” in the statement of profit & loss account.
- **Dividends:** Dividend income is recognized when the Company’s right to receive dividend is established by the balance sheet date.
- Revenue from contracts with customers is recognized when a performance obligation is satisfied by transfer of promised goods or services to a customer. For performance obligation satisfied over time, the revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.
- The Company transfers control of a good or service over time and therefore satisfies a performance obligation and recognizes revenue over a period of time if one of the following criteria is met:
 - i) the customer simultaneously consumes the benefit of Company’s performance or
 - ii) the customer controls the asset as it is being created/enhanced by the Company’s performance or
 - iii) there is no alternative use of the asset and the Company has either explicit or implicit right of payment considering legal precedents.

In all other cases, performance obligation is considered as satisfied at a point in time.

- The revenue is recognized to the extent of transaction price allocated to the performance obligation satisfied. Transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer excluding amounts collected on behalf of a third party. The Company includes variable consideration as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved. Variable consideration is estimated using the expected value method or most likely amount as appropriate in a given circumstance. Payment terms agreed with a customer are as per business practice and the financing component, if significant, is separated from the transaction price and accounted as interest income.

Costs to obtain a contract which are incurred regardless of whether the contract was obtained are charged-off in statement of profit and loss immediately in the period in which such costs are incurred. Incremental costs of obtaining a contract, if any, and costs incurred to fulfil a contract are amortized over the period of execution of the contract in proportion to the progress measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.

- **Significant judgments are used in:**

1. Determining the revenue to be recognized in case of performance obligation satisfied over a period of time; revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation.
2. Determining the expected losses, which are recognized in the period in which such losses become probable based on the expected total contract cost as at the reporting date.
3. Determining the method to be applied to arrive at the variable consideration requiring an adjustment to the transaction price.

(i) Revenue from operations:

Revenue from construction/project related activity is recognized as follows:

1. **Cost plus contracts:** Revenue from cost plus contracts is recognized over time and is determined with reference to the extent performance obligations have been satisfied. The amount of transaction price allocated to the performance obligations satisfied represents the recoverable costs incurred during the period plus the margin as agreed with the customer.
2. **Fixed price contracts:** Contract revenue is recognized over time to the extent of performance obligation satisfied and control is transferred to the customer. Contract revenue is recognized at allocable transaction price which represents the cost of work performed on the contract plus proportionate margin, using the percentage of completion method.

Percentage of completion is the proportion of cost of work performed to-date, to the total estimated contract costs.

For contracts where the aggregate of contract cost incurred to-date plus recognized profits (or minus recognized losses as the case may be) exceeds the progress billing, the surplus is shown as contract asset and termed as “unbilled revenue”. Amounts received before the related work is performed are disclosed in the Balance Sheet as contract liability and termed as “Advances from customer”. The amounts billed on customer for work performed and are unconditionally due for payment i.e. only passage of time is required before payment falls due, are disclosed in the Balance Sheet as trade receivables. The amount of retention money held by the customers pending completion of performance milestone is disclosed as part of contract asset and is reclassified as trade receivables when it becomes due for payment.

E. PROPERTY, PLANT & EQUIPMENT (PPE) :

Tangible Assets:

Property Plant & Equipment are stated at cost of acquisition less accumulated depreciation and impairment loss, if any.

The cost of acquisition includes direct cost attributable to bringing the assets to their present location and working condition for their intended use. The cost of fixed assets includes interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use and other incidental expenses incurred upto that date and excludes any tax for which input credit is taken.

Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Property Plant and equipment are eliminated from financial statements, either on disposal or when retired from active use. Losses arising in case of retirement of Property, Plant and equipment and gains or losses arising from disposal of property, plant and equipment are recognized in statement of profit and loss in the year of occurrence.

The assets’ residual values, useful lives and methods of depreciation are reviewed at each financial year and adjusted prospectively, if appropriate,

Depreciation on Tangible assets:

Depreciation is provided as per useful life prescribed by Schedule II of the Companies Act, 2013 on Straight Line Method on Plant and Machinery and on other Tangible PPE. Company during the year changed the method of depreciation from WDV to SLM and it's the change of estimates.

Depreciation is calculated on a Straight-Line Method basis over the estimated useful lives of the assets. Useful lives used by the Company are same as prescribed rates, prescribed under Schedule II of the Companies Act 2013. The range of useful lives of the property, plant and equipment are as follows:

Particulars	Useful Life
PLANT & MACHINERY	9 to 12 years
FURNITURE & FIXTURES	10 years
VEHICLES	8 to 10 years
OFFICE EQUIPMENTS	5 years
COMPUTER & PERIPHERALS	3 years
OFFICE BUILDING	60 years
RESIDENTIAL FLAT	60 years

Software for internal use, which is primarily acquired from third-party vendors and which is an integral part of a tangible asset, including consultancy charges for implementing the Software, is capitalized as part of the related tangible asset.

Subsequent costs associated with maintaining such Software are recognized as expense as incurred. The capitalized costs are amortized over the estimated useful life of the Software.

Capital work-in-progress

PPE not ready for the intended use on the date of the Balance Sheet are disclosed as “capital work-in-progress”

F. Investment properties:

Investment properties comprise portions of office buildings and residential premises that are held for long-term rental yields and/or for capital appreciation. Investment properties are initially recognized at cost. Subsequently investment property comprising of building is carried at cost less accumulated depreciation and accumulated impairment losses.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in profit and loss as incurred.

Depreciation on building is provided over the estimated useful lives as specified in Schedule II to the Companies Act, 2013. The residual values, useful lives and depreciation method of investment properties are reviewed, and adjusted on prospective basis as appropriate, at each financial year end. The effects of any revision are included in the statement of profit and loss when the changes arise.

Though the group measures investment property using cost-based measurement, the fair value of investment property is disclosed in the notes. Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the statement of profit and loss in the period of de-recognition.

G. IMPAIRMENT OF ASSETS:

Management evaluates at regular intervals, using external and internal sources, whether there is any impairment of any asset. If any indication for impairment of assets exists, the carrying value of such assets is reduced to its recoverable amount and the impairment loss is recognized in the statement of profit and loss. Impairment occurs where the carrying value exceeds the present value of future cash flows expected to arise from the continuing use of the asset and/or its net realizable value on eventual disposal. Any loss on account of impairment is expensed as the excess of the carrying amount over the higher of the asset's net realizable value or present value as determined. When there is indication that an impairment loss recognized for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognized in the Statement of Profit and Loss and the asset is restated to that extent.

H. INVENTORIES:

As Per IND AS 2, Material at site have been valued at cost or net realizable value whichever is lower. The Inventory is physically verified by the management at regular intervals. Cost of Inventory comprises of Cost of Purchase, Cost of Conversion and other Costs incurred to bring them to their respective present location and condition.

Work-in-progress consist of Work done but not certified and the incomplete work as on balance sheet date and same is valued at cost or net realizable value whichever is lower.

I. TAXES ON INCOME:

Income tax expense consists of current and deferred tax. Income tax expense is recognized in Statement of profit or loss except to the extent that it relates to items recognized in Other Comprehensive Income or directly in equity, in which case it is recognized in OCI or directly in equity respectively.

Current Tax:

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the Income Tax authorities, based on tax rates and laws that are enacted at the Balance sheet date.

Deferred Tax:

Deferred tax assets are recognized to the extent it is probable that taxable profit will be available against which deductible temporary differences, and the carried forward of unused tax losses can be utilized.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the assets realized based on tax rates (and tax laws) that have been enacted or substantially enacted as at the reporting date. The carrying amount of deferred tax liabilities and assets are reviewed at the end of each reporting period.

J. LEASES:

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of IND AS 116. Identification of a lease requires significant judgment. The Company uses significant judgment in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The Company applies Ind AS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the impairment of non-financial assets below.

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for lease component within the contract as a lease separately from non-lease components of the contract. The Company recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets are depreciated using the straight-line method from the commencement date. The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease.

Company as a Lessor

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognizes lease payments received under operating leases as income on a straight-line basis over the lease term.

Transition to Ind AS 116

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 Leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

Short-term leases and leases of low-value assets

The company has elected not to recognize right-of-use assets and lease liabilities for short term leases of real estate properties that have a lease term of 12 months. The company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

K. EMPLOYEE BENEFITS:

Employee benefits include salaries, wages, contribution to provident fund, gratuity, leave encashment towards un-availed leave, compensated absences, post-retirement medical benefits and other terminal benefits.

Short-term employee benefits

Wages and salaries, including non-monetary benefits that are expected to be settled within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Post-employment benefits

Defined contribution plan

Employee Benefit under defined contribution plans comprises of Contributory provident fund, Post Retirement benefit scheme, Employee pension scheme, composite social security scheme etc. is recognized based on the undiscounted amount of obligations of the Company to contribute to the plan. The same is paid to a fund administered through a separate trust.

Defined benefit plan

Defined benefit plans comprising of gratuity, post-retirement medical benefits and other terminal benefits, are recognized based on the present value of defined benefit obligation which is computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These are accounted either as current employee cost or included in cost of assets as permitted.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Other long-term employee benefits

Other long-term employee benefit comprises of leave encashment towards unavailed leave and compensated absences, these are recognized based on the present value of defined obligation which is computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These are accounted either as current employee cost or included in cost of assets as permitted.

Remeasurements of leave encashment towards unavailed leave and compensated absences are recognized in the Statement of Profit and Loss except those included in cost of assets as permitted in the period in which they occur.

Short term employee benefits

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service. Liabilities recognized in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date

L. Non- current Asset held for sale:

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset (or disposal group) and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification. Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Noncurrent assets are not depreciated or amortized.

M. Borrowing costs:

- a) Borrowing costs that are attributable to the acquisition, construction, or production of a qualifying asset are capitalized as a part of the cost of such asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset that necessarily requires a substantial period of time (generally over twelve months) to get ready for its intended use or sale.
- b) All other borrowing costs are recognized as expense in the period in which they are incurred.

N. Provisions,Contingent Liabilities, Contingent assets and Commitments:

A provision is recognized when the company has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on managements' best estimates required to settle the obligation at the Balance Sheet date.

These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. The expense relating to a provision is presented in the statement of profit and loss.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more future events not wholly within control of the Company.

Contingent liability is disclosed in the case of:

- present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- A present obligation arising from past events, when no reliable estimate is possible;
- A present obligation arising from past events, unless the probability of outflow of resources is remote.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

Contingent Assets are neither recognized nor disclosed in the Standalone Financial Statement.

O. IMPAIRMENT OF ASSETS:

Management evaluates at regular intervals, using external and internal sources, whether there is any impairment of any asset. If any indication for impairment of assets exists, the carrying value of such assets is reduced to its recoverable amount and the impairment loss is recognized in the statement of profit and loss. Impairment occurs where the carrying value exceeds the present value of future cash flows expected to arise from the continuing use of the asset and/or its net realizable value on eventual disposal. Any loss on account of impairment is expensed as the excess of the carrying amount over the higher of the asset's net realizable value or present value as determined. When there is indication that an impairment loss recognized for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognized in the Statement of Profit and Loss and the asset is restated to that extent.
