ABOUT THE COMPANY

Mr. Ajit Jain embarked on his entrepreneurial journey as a proprietor in 1991. Throughout the years, he undertook numerous esteemed projects and established his enterprise as a reputable construction company, "Shashijit Construction Private Limited," serving South Gujarat, Union Territory of Dadra and Nagar Haveli, and Daman and Diu.

To cater to the escalating demands of the industry, the company was incorporated on 5th November 2007 and was subsequently converted into a Public Limited Company in 2016, bearing the name "Shashijit Infraprojects Limited." Later in the same year, the company was listed on the SME Platform of BSE Limited. To further augment its growth and expansion, the company migrated from SME to the Main Board in 2020, intending to act as a catalyst.

The company specializes in constructing, building, and developing Immovable properties, including industrial infrastructure facilities, driveways, public utilities, powerhouse buildings, and factories. For more than two decades, the group's core values of commitment to timely project completion and top-notch construction have fueled the company's rapid development, which is demonstrated by over 150 accomplished projects alongside ongoing ones.

The group's forte lies in the Industrial and Civil Construction sector, and Shashijit Infraprojects Ltd is renowned for delivering general contracting, pre-construction management, and turnkey development services. Presently, the company has diversified its operations and expertise into several sectors, such as building and developing residential and commercial complexes as well as undertaking turnkey industrial projects.

Mr. Ajit Jain, Chairman & Managing Director

Ajit Jain is the esteemed Promoter, Chairman, and Managing Director of our esteemed company. He has earned a Bachelor of Engineering degree in Civil Engineering from Devi Ahilya Vishwavidyalaya, Indore, which showcases his strong academic qualifications. With a remarkable experience of over 32 years in the construction industry, he oversees the overall management and operations of our company with great proficiency. Through his visionary leadership, our company has reached new heights of success and distinction, which is evident from us receiving the esteemed "BEST SME-INFRASTRUCTURE-2017" award in Navbharat SME Business Excellence Award 2017. His exceptional entrepreneurial skills exemplify his remarkable acumen in leading our company towards continued excellence.

ORGANIZATIONAL CHART

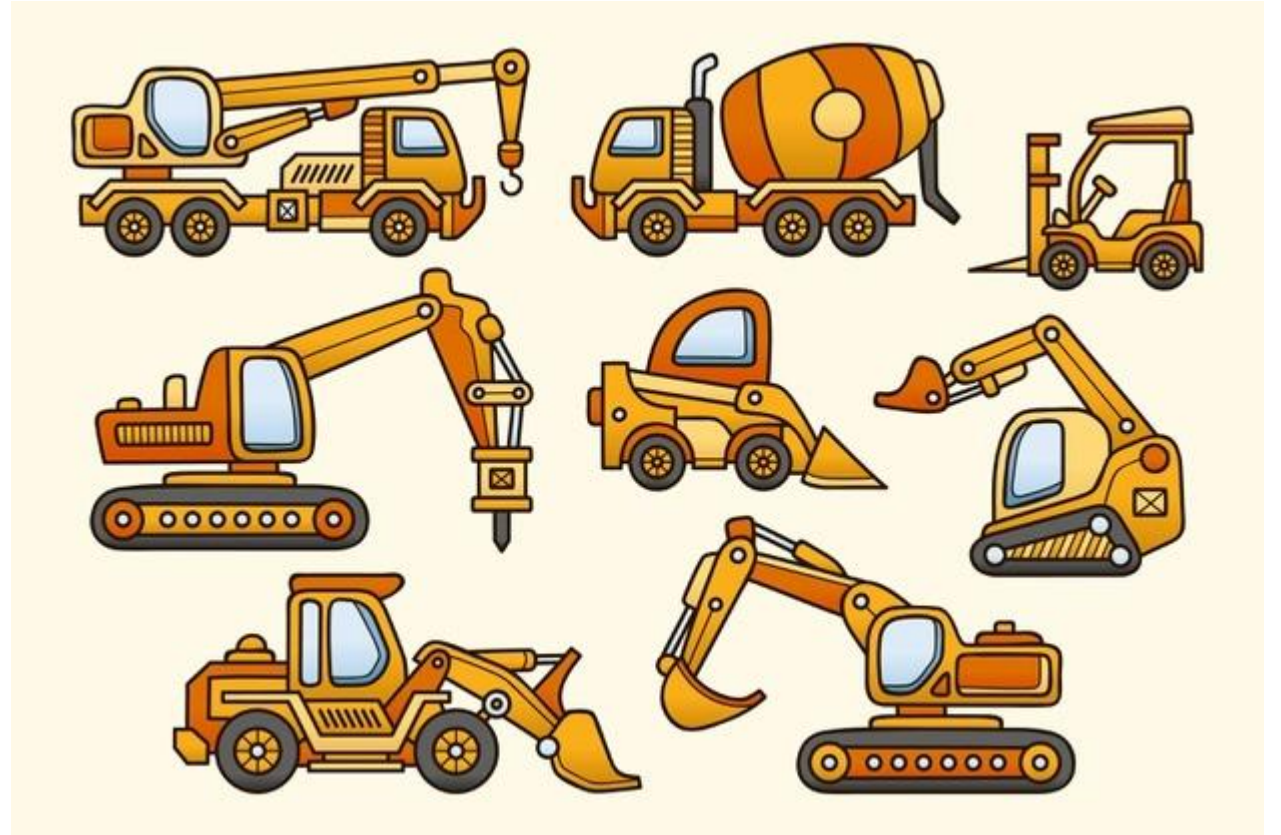

TECHNOLOGY & MACHINERY

Shashijit Infraprojects Limited is a technology driven company with sound technical expertise. Its Plant and Equipment resources encompass a very wide spectrum to include State of The Art fleet of construction equipment and machineries.

Shashijit has procured a fleet of construction equipment and endeavors to continuously add the latest machinery to its ever growing fleet.

MACHINERY

Our current fleet is equipped with the state-of-the-art machinery :-

- J.C.B
- Dumpers/Tippers
- Vibratory/static roller
- Wheel mounted crane of 24*30 mtr
- Earth Compactor
- Tractors
- Poclain excavator
- Tractor Mounted Crane of 15*24 mtr

EARTH MOVERS

- Mini Batching Plant
- Concrete Placing Equipment
- Concrete Mixer Machines
- Concrete Weight Batcher
- Concrete Vibrators (Petrol & Diesel)
- Vibrating Needles
- Transit mixer for concrete pouring

CONSTRUCTION EQUIPMENT

- M.S. Plates
- M.S. Bracing Pipe
- Scaffolding (H FRAME and CUPLOCK)
- Telescopes Props
- Swivel Clamps
- U' Jack Head
- Ply Shuttering
- Telescopic Span

FORM & FIXTURE MATERIAL

- Cube Testing Machines
- Sieve Analysis Test
- Cube Moulds
- Slump Cone Set

TESTING EQUIPMENT

- Level Machine (Auto)
- Theodolite
- Laser Machine

SURVEY INSTRUMENTS

- Mini Crane/Lift
- De-watering Pump
- Plate Compactor
- D.G. Set
- Trimix Machines
- Bar Cutting Machines
- Bar Bending Machine
- Concrete Breaker Machine (Electrical)
- Water Tanker
- Curing Pump
- Staff Van

MISCELLANEOUS EQUIPMENTS

- Welding Machines
- Gas Cutting Set
- Winch Machine
- Grinders, Blowers and Drill Machine

FABRICATION ACCESSORIES

The Policy Prohibited

Bringing,using,distrubting,storeing,handeling or indulging in any other activity involving illegal drugs,alchole beavegious ,fire arms,weapos or any other illegal material/equipment in any area of the working premises of SIPL.

We shall communicate this policy to all our staff and workforce and policy will be made available to all other stakeholder on request.

Quality Assurance Programme

INTRODUCTION:

Building industry today has progressed a long way. With progress there is a healthy competition and more focus has to be given to customer satisfaction. The customer satisfaction mainly comes from the quality of the product, timely delivery and economy. As we are mainly in the business of construction of industries/ commercial & Residential complexes, it should be our prime concern to provide our customers with trouble free industrial or commercial premises which require minimum maintenance and give adequate structural safety to the occupants and their belongings.

This manual on Quality Assurance Programme (QAP) defines the QA system, procedures and fixes responsibilities in the implementation of the programme. In order to have clarity in the objectives and results of QA this manual will be the main source of information for our entire team of Engineers, Supervisors and Technicians.

We strongly believe that well engineered designs, specifications and construction practices, good training and motivation of supervisory and work force, effective and timely supervision, proper workmanship, diagnostic and proving tests and critical inspections are essentials for achieving and sustaining good quality of work on our projects. With concerted efforts at all levels & proper inputs from our consultants, Shashijit Infraprojects Ltd can upgrade its leading role in the Building industry in Gujarat. It is therefore obligatory for all responsible for execution of various projects to ensure that highest standards of quality are aimed at and achieved.

This Method statement will be reviewed and revised from time to time as various jobs progress based on the inputs at all level. Some additions and modifications will be necessary as new methods, new materials and new practices are adopted by our organization.
